About

Aditya Gupta is a Technical Trainer and Full Stack Developer with over 11 years of experience, dedicated to helping students and freshers build real, industry-ready skills. Over the years, he has worked with students from school, college, and early-career backgrounds — guiding them from basics to real-world application development.

"Career preparation is not about shortcuts or certificates — it is about strong fundamentals, clear thinking, and hands-on practice."

What He Helps Students With

- Programming fundamentals — C, C++, Java, Python
- Data Structures & problem-solving
- Full Stack Development — React, Node.js, Express, MongoDB (MERN)
- Mobile App Development — Android, iOS, React Native, Flutter
- Cloud basics — AWS
- Career guidance, project thinking & interview readiness

How His Training Is Different

- Concepts explained in simple, practical language
- Focus on why, not just how
- Real-world projects instead of copy-paste tutorials
- Honest guidance about careers, roles, and growth paths
